

# Ignite Your Business Potential with Reach Ignite

Step into the future of cyber security with Reach Ignite, ONGC's unparalleled Managed IT Services solution.

Designed with SME's in mind, Reach Ignite seamlessly marries robust entry-level security with your daily operations, allowing you to channel your energy towards what really matters – growth and innovation.

Armed with an extensive suite of services, Reach Ignite comes packed with the power of Microsoft 365.

It also includes fail-safe solutions for:

**Data Backups**

**Endpoint Protection**

**Password Management**

**User Access Control**

Everything you need to streamline your IT operations is just a flip away in the package details.

# Fuel Business Growth with Reach Ignite

Businesses of all sizes are faced with several challenges – limited resources, technical expertise, and time. Here's where Reach Ignite comes in.

## **Strong Foundational Security**

Reach Ignite strengthens your cyber security posture, defending you against many of the common threats facing today's businesses.

## **Accelerated Productivity**

Redirect the time spent on resolving IT issues towards your team's core responsibilities, boosting productivity and output.

## **Maximised Uptime**

With our dedicated support team, hardware failures, software glitches, and human errors are a thing of the past, ensuring your operations run smoothly around the clock.

## **Cost Efficiency**

By aligning with ONGC, you'll be provided simple and competitive pricing whether it be for hardware, software or bespoke projects. Our team are here to help you plan ahead and align budgets with your business goals to remove any nasty surprises.

## **Achieve Business Breakthroughs with ONGC**

As a proudly Australian-owned IT company, we're here to accelerate your digital transformation and propel you towards your business goals.

Our clients don't just get IT solutions, they get peace of mind, efficiency, and long-lasting partnership.
